a
Annotation effects ($p$ 0.2×)
y = 0.407x + −0.16 ; r² = 0.22
Estimated gene indirect ABF
Simulated gene indirect ABF
b
Annotation effects (correct $p$)
y = 0.387x + −0.19 ; r² = 0.25
Estimated gene indirect ABF
Simulated gene indirect ABF
c
Annotation effects ($p$ 5×)
y = 0.418x + −0.3 ; r² = 0.2
Estimated gene indirect ABF
Simulated gene indirect ABF
d
Gene ABFs ($p$ 0.2×)
y = 0.367x + 0.16 ; r² = 0.23
Estimated annotation effect
Simulated annotation effect
e
Gene ABFs (correct $p$)
y = 0.305x + 0.15 ; r² = 0.25
Estimated annotation effect
Simulated annotation effect
f
Gene ABFs ($p$ 5×)
y = 0.136x + 0.066 ; r² = 0.29
Estimated annotation effect
Simulated annotation effect
